

Procurement Partners, Paymerang Announce New Partnership

Best in Class Procure-to-Pay solution to offer award-winning electronic payables solution

Brookfield, Wi. and Richmond, Va. – August 10, 2020 – [Procurement Partners](#), the senior living and post-acute care market’s fastest growing cloud-based eProcurement and invoice automation platform, has partnered with [Paymerang](#), an award-winning accounts payable epayment and payment fraud solution. The partnership was finalized in June, and Paymerang’s services have become available to Procurement Partners clients beginning July 1, 2020. The initial response from the first few clients has been incredibly positive.

With a payment network spanning over 400,000 vendors nationwide, Richmond, Virginia-based Paymerang provides its clients and partners across the U.S. with a simple, secure and profitable way to automate their accounts payable disbursements.

Paymerang’s integration with Procurement Partner’s forward-thinking solutions is designed to reduce both the hours and the materials required for the typical accounts payable processes through electronic payments – saving clients time, resources and money.

“Increasingly, our clients are looking for ways to move away from time intensive paper-based systems so they can be more efficient managers.”, said CEO Rusty Zosel, “Paymerang lets our clients transition 100% of their payables with little to no effort in 30 days or less, and the solution is fully integrated with Procurement Partners. We selected Paymerang due to their experience in payment automation, as well as their customer centric approach – similar to how we operate at Procurement Partners.

“This partnership is a big win for the senior living and post-acute care market,” said Nasser Chanda, CEO at Paymerang. “We’re going to streamline how vendors get paid and make the whole supply chain cycle more secure. Ultimately, this will allow managers and operators to drive financial performance and provide the best possible care and quality of life for our seniors.”

The solution has been made available to all customers within Procurement Partners’ customer base, which consists of thousands of properties across the United States.

###

About Procurement Partners

Since 2009, Procurement Partners has been leading the business commerce evolution with its Procure-to-Pay solution. The complete eProcurement and transaction automation portal built and supported by Procurement Partners reduces off-contract spend and drives efficiency to purchasing processes, while also automatically auditing every invoice. The significant amount of flexibility of the Portal, along with the capability to service customers of all sizes, has made Procurement Partners the fastest growing Procure-to-Pay solution in multiple markets.
