Business Continuity
Send payments anytime from anywhere, without the need for printers or check stock. Paymerang CARES echecks don't rely on a check printing facility or the postal system, so you have more flexibility and will not experience any delay in payment delivery.

Reduce Time & Costs
Paymerang CARES lets you create and send digital payments in a fraction of the time — and at less than half the cost — of manually sending paper checks. No more printing checks, stuffing envelopes or paying for postage.

Patented Security
Our innovative security features dramatically reduce fraud risk. No sensitive financial information ever changes hands—all you need to send payments is student email addresses.

Direct Delivery to Students
Paymerang CARES payments are directed to student email addresses to ensure direct delivery to students. Once received, students can print from home and deposit personally or using mobile deposit. Students will receive three automated reminders regarding uncashed funds.
