Paymerang Boosts Efficiency and Profitability for a Growing Senior Living Community

ABOUT JULIETTE FOWLER COMMUNITIES

Juliette Fowler Communities is a not-for-profit senior living community that serves over 900 individuals and families, employs 150 team members, and engages more than 2,000 volunteers annually. Their services range from independent and assisted living to skilled nursing and rehabilitation, memory care, foster care, and adoption services.

The Challenge

Traditional paper-based financial processes were causing delays, increasing the risk of errors, and limiting the potential to scale up operations. The organization needed a solution that could move millions of dollars in annual AP spend from paper checks to electronic payments.

“Being able to reduce our time processing a payment batch by over 80% is quite a bit of time saved on a weekly basis. So, for anyone out there that is on the fence and not sure if it's worth it, it is a hundred percent worth it to you, to your team and your organization to be able to partner with Paymerang.”

- Scott Martinez
CFO - Juliette Fowler Communities -

The Solution

Paymerang delivered an automated payment solution that enabled Juliette Fowler Communities to see immediate efficiency gains, reduced costs, and enhanced their ability to scale. The organization's AP payments went from 100% paper check to over 50% electronic after a seamless transition to Paymerang.
